NATIONAL ANTHEM

Nigeria, we hail thee
Our own dear native land

Keynote Speaker

Professor Oladele B. Akogun

akoguno@yahoo.com | +234 803 722 0460

Professor Oladele Akogun is a systems and development research specialist with over 37 years' experience in research for development, intervention management, and monitoring, evaluation and learning. His work focuses on inclusion strategies that improve access, quality and continuity of services across Nigeria and the wider African continent, grounded in community participation, evidence co-production, local ownership, and the systematic uptake of knowledge into policy and practice.

He holds a PhD from the University of Jos, a Postgraduate Diploma in Education from Ahmadu Bello University, Zaria, an MPH from the University of the Western Cape (South Africa), an MBA in International Health Management from the University of Basel (Switzerland), a Bachelor of Laws from Baze University, and a Master of Laws and Dispute Resolution from Robert Gordon University, Aberdeen. He is a Fellow of the Chartered Institute of Arbitrators (FCIArb), the Royal Society for Public Health (FRSPH), and the Royal Institute of Public Health and Hygiene (FRIPHH).

Professor Akogun has led and contributed to numerous national and international research and evaluation initiatives, including senior roles with FCDO-funded consortia: Country Director for Education Data, Research and Evaluation in Nigeria (2013–2018); Team Leader for ECORYS' Development Evaluation, Learning and Verification (DELVe) programme (2020-22); and, currently, Senior Researcher and Regional Director for the IRC-led Education Research in Conflict and Protracted Crises (ERICC) consortium. Across these roles, he has managed multi-country, multi-disciplinary teams, shaped coherent regional research agendas, engaged development partners, and strengthened local research capacity.

In education, he has made significant contributions to evidence generation and system strengthening. He has co-authored studies on teacher gaps, effectiveness, recruitment and deployment in Northern Nigeria; the use of evidence in teacher policy; the impact of protracted violence on the primary school teaching workforce in Borno State; and the management and implementation of special education needs and disability policy to improve access for persons with disabilities. He co-authored "The EDOREN Model: Reflections and Implications for Other DFID Programmes," which distils lessons on embedding research and evidence use within education programmes. His recent work includes research on intra-sectoral collaboration in basic education in Northern Nigeria, and on localisation and education in conflict and protracted crises (ERICC).
Beyond education, Professor Akogun has a strong public health research portfolio, particularly in parasitology and health systems, and has contributed to high-impact work on district health systems and universal health coverage in Africa. He authored *The Researcher's Manual*, a widely used postgraduate textbook on research methodology, and co-developed WHO-TDR resources including *Reporting with Pictures* and the Implementation Research MOOC.

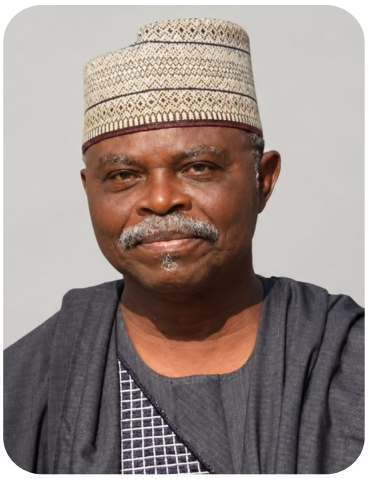

He has received more than 40 competitive research grants and has led successful institutional and consortium bids. His leadership spans strategy development to ensure evidence is co-produced with policymakers, practitioners, politicians, civil society and academics; management of international and national teams; and sustained engagement with governments and donors to translate research into policy and practice.
Professor Akogun brings to the Nigerian Academy of Education a rare blend of deep disciplinary expertise, cross-sectoral experience in health and education, and a long-standing commitment to rigorous evidence as a tool for transforming systems, advancing inclusion, and improving learning and life outcomes in Nigeria.

Celebrating Excellence, Scholarship and Service

WORDS OF FELICITATION TO A RARE GEM

Congratulations to you, Professor Adanma N. Ohia!

"If you have seen further, it is by standing on the shoulders of giants." (Isaac Newton) Prof A.N. Ohia is that giant, as I don't need to see the whole part, knowing she came before me, as nature makes growth come with greater responsibility, but the ability to rise to every occasion, complete each task with excellence, and leave a distinctive mark is what truly sets you apart.

CONGRATULATORY MESSAGE

We, on behalf of the entire family of Akuegwu wish to congratulate our own – beloved son, brother, uncle and father – **Prof. Basil Azubuike Akuegwu** on his induction as a member of the prestigious Nigeria Academy of Education. You have a beacon of light and hope, an inspirator, a pacesetter, a primus enta paris (first among equals), a role model, an academic colossus, a mentor par excellence and a motivator of the highest hue.

As you have reached this milestone, we celebrate the grace of God upon your life, your integrity has been a source of pride to us, your dedication to the service of humanity is unparalleled, your contributions to education in your field of expertise is invaluable, your passion for excellence is legendary and your love for others is highly commendable.

We are proud to be associated with you on this auspicious occasion. We thank God for letting you cross our parts and pray for long life, sound health, His continued guidance, preservation and protection.

Once again, we congratulate you and thank the Nigeria Academy of Education for this important recognition.

We remain your own – Glory, Chidire, Ihechimere and Chibuchi!

With immense pride and admiration, we celebrate Dr. Salamatu Hussaini —a remarkable woman whose life reflects the values of service, courage, compassion and purposeful leadership.

Across more than four decades, she has served with distinction in law, public administration and diplomacy. From her work at the Securities and Exchange Commission to her appointments as Minister of Women Affairs and Social Development and Minister of State for Foreign Affairs, she has helped shape institutions and advance the public good. As ECOWAS Commissioner for Political Affairs, Peace and Security, she made history as the first woman to hold that position, contributing to peace, security and cooperation across West Africa.

Her achievements, however, extend beyond public office. Through the **Alkali Hussaini Foundation,** which she established in 2007, Dr. Salamatu has championed education, women's empowerment and poverty reduction. The Foundation's work in scholarships, literacy, vocational skills and community development reflects her belief that opportunity can change lives and that lasting progress begins when people are equipped to shape their own futures.

Her example reminds us that true leadership is measured not only by the offices one holds, but by the lives one touches, the opportunities one creates and the hope one leaves behind. Her dedication to human rights, education and the advancement of vulnerable communities continues to inspire.

OUR PRAYER

May Almighty Allah continue to bless you with good health, wisdom, strength and peace; reward your service, enlarge your impact, and grant you many more years of fulfilment and meaningful contributions to humanity. Ameen.

With respect, love and warmest wishes,
ALKALI HUSSAINI FAMILY,
